

What About Your Eyes?

People oft. think that the condition of their eyes will improve without glasses. Such is rarely the case. Let us examine your eyes and fit a pair of glasses for you that you will thank us for when you appreciate their usefulness, comfort and style.

To Our Subscribers
Subscribers of The Republican who fail to receive a copy of the morning's issue will confer a favor by calling Overland 422 or Consolidated Main 47. Before 8 a. m. a special messenger equipped with motorcycle will deliver the missing issue. Without the co-operation of our subscribers in this matter it is impossible for us to maintain perfect and satisfactory delivery.

Of Local Interest

HOME FROM SEASIDE.—Miss Eudora Vestal has returned from her summer outing at Ocean Park.

NEW NOTARY.—E. V. Horton, of Clifton, Greenlee county, has been appointed a notary public.

BOUGHT HOME HERE.—George Day who has been known for years as a prosperous Buckeye rancher, has bought a new home on West Monroe street and will live in Phoenix.

DEATH OF EDWARD MCINTYRE.—Edward Everett McIntyre, the three year old son of Mr. and Mrs. R. W. McIntyre, whose serious illness of meningitis was mentioned a few days ago, died Tuesday night. The funeral will be held at 2 o'clock this afternoon, at the family home, two and a half miles north on Central avenue, just beyond the Osborn school.

SURVEYS APPROVED.—Mineral Survey No. 2924, Apex, Pinal and Pinalia lode mining claims, situated in the Globe Mining District, Gila county, Arizona, and claimed by the Miami Copper Company, has been approved by the surveyor-general. Mineral Survey No. 2942, Nugget lode mining claim situated in the Slate Creek mining district, Yavapai county, Arizona, and claimed by E. H. Bushnell, has also been approved by the surveyor-general.

WILL GO PREPARED.—Wm. P. Crump leaves this morning on his periodical trip to Winkelman, Kelvin and Ray. This time, to provide against the possible recurrence of a cyclone and cloudburst, he will not only leave his canvas shoes, straw hat and light clothes at home, but will carry his umbrella, "sucker" and gum boots. It is needless to add that he will carry a list of the good things raised in the valley and California fruit and vegetables that he ships in, to offer to the inhabitants of that prosperous section of Arizona.

OHIO VISITORS.—Mr. and Mrs. H. W. Noate left last evening for Cleveland, Ohio.

TO PENNSYLVANIA.—Bob Baker, son of Judge A. C. Baker, left last evening for Mercesburg, Pa.

DOUGLAS VISITOR.—George H. Kelly of the Douglas International is a visitor in the capital city.

IN PASADENA.—Miss Lillian R. Patch is spending the rest of the summer in Pasadena, having left last evening.

TO COLLEGE.—Harry and Miner Fish left last night for Los Angeles to enter college, there. Miss Helen Hirst, daughter of C. T. Hirst, also left last evening for Buchanan, Michigan, where she will also attend college.

TO LOS ANGELES.—Mr. and Mrs. C. D. Roberts, and Mr. and Mrs. Z. Mossbacher, of Chicago, who have been stopping in Phoenix for a few days, all left for Los Angeles, last evening.

THE TOSSUP.—In a tossup as to choice of quarters in the new armory of companies A and B, a won it is believed now that officers' as well as quartermasters' quarters can be provided.

CANDIDATES FOR LOWER HOUSE.—It is understood that John S. Williams, the district attorney of Cochise county, is a candidate for nomination by the republicans, for representative.

MODEL TENNIS COURT.—A new tennis court, made of cement, and believed to be the only one in this section, has been constructed at the Phoenix Indian school. The tennis players of the city who may be interested, are invited to visit the school and inspect it.

GRINSTEAD PROMOTED.—Major E. P. Grinstead has been transferred from the position of clerk at the Phoenix Indian school where he has served so long and efficiently, to that of disciplinarian of the school. He succeeds L. J. Holzworth who resigned about three weeks ago, to go into business in El Paso.

A. & C. TRAIN DELAYED.—The Phoenix train due to arrive yesterday morning at 7 o'clock did not reach here until 9:45 last night. The west bound Phoenix that should have left at 7:30 last night did not get away until sometime after 10 o'clock as it was waiting for the arrival of the east bound train. The delay was caused by a washout somewhere between Parker and Bartow. Anyhow the passengers reported that they found themselves in Bartow yesterday morning when the breakfast bell sounded, instead of the environs of Phoenix.

CERTIFICATES TO TEACH.—The territorial board of examiners has granted certificates to teach, on credentials presented, to the following named: Miss Ruth Hamill of Grand Canyon, on a Pennsylvania permanent certificate; Miss Mattie Fisher of Bard, Cal., on a Kansas state normal diploma; Lizzie Jones and R. E. Brannan of Wilcox, on Texas state normal diplomas; Marie Tustin of Williams on a New Mexico life certificate; M. L. Benson of Flagstaff, on a California life diploma; Miss Florence Spreckelmeier of Douglas, on a Missouri state normal diploma; Lucile Vernaz of Williams on a Missouri state normal diploma.

HARRY WELCH HOME.—Harry Welch, secretary of the Phoenix board of trade returned home yesterday morning from his summer vacation on which he set out July 16. Mr. Welch went first to Denver, thence to Chicago, thence to northern Michigan via the lake route, back to Chicago again, south to Kentucky and then home. He reports having enjoyed a delightful outing. He met quite a number of Phoenix people in various places, especially in Chicago which seems to be a general rallying point. Mr. Welch says he heard considerable inquiry concerning Arizona, even though he spent most of his time on wheels and did not hang around long in one place. He noted much building in the cities he visited but in none of them were operations more extensive than in Phoenix, relative sizes of cities being considered.

NEWS FROM OIL FIELDS.—Geo. A. Mauk yesterday received advices from the Seven Lakes oil field in McKinley county, N. M., that make himself and those associated with him in the development of that field more sanguine than ever of the oil in that section was found in a four inch well sunk for water, the greatest depth of the well being 250 feet. When the oil was found the digging was stopped, and the exploitation for oil was undertaken. Recently the well caved and the owners cleaned it out. In doing so they sunk the hole a few feet deeper and secured a much stronger flow of oil and gas than was first encountered. They do not regard this however as the main oil basin but merely a deposit forced up by the gas pressure. They expect to go perhaps 1,500 feet before striking the main oil lake.

TEACHERS HERE.—Prof. Geo. Anderson Jordan, principal of the Central school last year but who is to have the same position in the Adams building this year, was married, Sept. 6, to Miss Laura Horton at the home of her parents in Delton, Mich. They are expected here sometime this week and will be at home to their friends at 628 North Third avenue after Sept. 18. Prof. C. W. Randall and wife, of Winona, Ill., Prof. Lester R. Finch, director of the manual training work from Greeley, Colo., and Prof. Earl Rosenberry, from Los Angeles have all arrived. Also Miss Ruth S. Lewis, head of the domestic science and art department. The teachers are all to meet at the Central school building tomorrow morning at 10 a. m., when the program of the year's work will be gone over and the teachers, both old and new, will have an opportunity to become acquainted with it.

ARE YOU
subject to bilious attacks? LIT-TEN—Thousands of persons so afflicted, have found that
HOSSETT'S STOMACH BITTERS
gave relief quicker than anything else. We urge you to try it.

DIRECTORS TO MEET.—The board of directors of the Y. M. C. A. is scheduled to meet at the association building at 4:30 this afternoon.

THIRD AT ISAACS.—Isaacs school district is growing in a school way. The present enrollment is 87, with a few still to come, and but two teachers; so the board of that district is looking for another teacher.

AN INDEPENDENT.—A. A. Worsley, whose principal efforts in politics, just now, seems to be scoring the democratic party and booming himself for the democratic nomination for attorney general, will be in Phoenix the 15th and 16th of September, Friday and Saturday of this week, to make a couple of speeches on his candidacy.

GROUND BROKE.—Ground has been broken and the excavating has been done for the new one-story, glass-front building which H. I. Latham has contracted for the building of on the southwest corner of First avenue and West Adams street. It is to be about 80 feet on each street, and the front will be almost entirely glass, making a very nice location for offices for physicians and the like.

DORMITORY POPULAR.—The Y. M. C. A. dormitory is achieving popularity. Among those who are now making their permanent home there are L. B. Finch, teacher of manual training in the grammar school; Lyander Cassidy, to whom his friends in the Y. M. C. A. now attach the title of "Judge;" and R. N. Moutier, city ticket agent of the Santa Fe office.

STILL THEY COME.—The United States land office at Phoenix, which cares for the whole of Arizona, has received eleven more mineral applications, five Tuesday and six yesterday. All the six were from the Arizona Copper company, of Clifton, Morenci, Metcalf, and other camps in the eastern part of Arizona and were on locations in that section. The five were from various points in this territory.

INDIAN WAY.—Fred Yashire of the Indian school, is in jail, having gotten there yesterday for having taken a bicycle belonging to Louis Wurst some weeks ago to ride to the Indian school from town one night, and forgetting to return it. In fact he lent it to another Indian boy, who left it standing against the Central M. E. church, where Wurst saw it yesterday and reported the matter to Special Patrolman Hosmer. By waiting for the borrower to come after it, Hosmer was led to the Indian who borrowed it from the owner.

VACATIONISTS.—Reports from members of the Y. M. C. A. of the courtesies extended to them this summer on their vacations by other Y's show that the little feature of lockers for visitors which some of the other Y's have produced a great deal of brotherly feeling and being-at-homeness in the hearts of the visitors, and it is altogether likely that that feature will be added to the Phoenix Y. M. C. A. building. The incident gave the visitors from Phoenix a most ideal better conception of what the Y. M. C. A. means and the brotherliness it stands for.

AS INTIMATED.—The monkey went scot free, at the trial of Avis in the recorder's court, yesterday. The evidence in the court taken from the witness for Mr. Canning—no testimony was taken from the defense—was that they heard the monkey squealing; that they did not seek any one to strike him; and that a monkey might squeal his funny little squeal if you poked a stick at him. The evidence taken among the friends of the accused, on the steps of the court before the regular session, was that Avis bought the monkey as a good way of advertising, and it was obviously suspected by some of the jurors on the doorstep that perhaps he made him squeal for the same reason. It seems that he has had about all the free advertising he ought to have out of the little incident.

GYPSUM.—The gypsum factory just east of Phoenix on the Tempe road, is completed. The company's gypsum supply comes from the San Pedro river.

ON THE QUIET.—Perry Munger, one of the three well known and popular brothers of that name who have made themselves famous hereabouts by the olive oil and other like eatables they have produced and sold, was married on August 28 to Miss Edith G. Tiernan, formerly of Los Angeles who came here with her brothers some months ago. They went to Pine- air with a camping party telling only their party of their marriage.

LOOKING FOR THE LOST.—Chief of Police Moore has received a letter from "Rupert," Indiana, as follows: "Carley Cotter left here August 24 in feeble health, hardly expected to reach Phoenix alive. However, I received a letter from him under date of Aug. 28, from Phoenix saying that he arrived, but I have had no word since. Will you kindly make search for him and wire at my expense?" The chief certainly will. He always does.

DYNAMITERS ARRESTED.—Chief Moore yesterday received a card from Otto Balke, to whom he gave a Morrison officer's star just previous to his departure for Europe. The card reads: "My Dear Chief—Have just arrested three L. A. dynamiters—Schmidt et al, and have placed them in safe keeping in the fuman of the old battle. Waiting for further orders, I am, P. S.—The Day After—I am sorry to report that the dynamiters broke jail. Cut the brick. Yours, Otto."

CAPITOL BUILDING WRECKED BY STORM

Splendid Structure at Springfield, Ill., Is Unroofed—Much Other Damage Is Done by the Wind.

SPRINGFIELD, Ill., Sept. 14.—Spreading wreck and ruin in its wake, a disastrous windstorm laid Springfield and Central Illinois in its grip for three hours this morning. The damage totals hundreds of thousands. At Taylorville a lineman was electrocuted while repairing broken wires. By far the largest single loss is sustained by the state capitol building. The wind carried away a large portion of the new copper roof of the dome, smashed numerous windows and uprooted many trees. The damage to the capitol building is estimated at \$50,000. Thousands of acres of growing corn were laid flat, and much fruit was destroyed.

BRONCHO BUSTERS KILLED IN RACE

DORRIS, Cal., Sept. 13.—E. E. Deisenrath, and Charles Williams during friendly race on ponies today, were thrown to the ground and both died from their injuries. Both were "broncho busters" but during the race Deisenrath was thrown into a barbed wire fence, and Williams, going to his rescue, met the same fate.

The prohibitionists who have been unusually busy during the whole of the present year, so far, will be the first to arrange for the national campaign, having decided to choose the date and place of their convention on the 6th of December next. This will probably be the only party to begin the activities of 1912 in 1911.

Senator Cummins lauds Senator La Follette, which seems to confirm the previous general opinion of both of them.
